"Granite Point had a great 2018 delivering strong results, "stated Jack Taylor, Granite Point's President and Chief Executive Officer". Record fourth quarter originations of \$669 million brought our yearly total to approximately \$1.6 billion, up 30% from 2017. Additionally, we expanded and added different types of financing lines and executed our first CLO securitization, which provided low cost, term-matched, non-recourse financing for a significant portion of our loan portfolio. We continue to successfully execute on our strategy and grow our business supported by the strong capabilities of our direct origination platform while maintaining an attractive risk profile."

(3) Yield includes net origination fees and exit fees, but does not include future fundings, and is expressed as a monthly equivalent yield.

(4) Excludes deferred debt issuance costs.

⁽¹⁾ Core Earnings is a non-U.S. GAAP measure that we define as comprehensive income attributable to common stockholders, excluding "realized and unrealized gains and losses" (impairment losses, realized and unrealized gains or losses on the aggregate portfolio and non-cash compensation expense related to restricted common stock). We believe the presentation of Core Earnings provides investors greater transparency into our period-over-period financial performance and facilitates comparisons to peer REITs. Please see page 6 for a reconciliation of GAAP to non-GAAP financial information.

⁽²⁾ Stabilized LTV is calculated as the fully funded loan amount (plus any financing that is par passu with or senior to such loan), including all contractually provided for future fundings, divided by the as stabilized value (as determined in conformance with USPAP) set forth in the original appraisal. As stabilized value may be based on certain assumptions, such as future construction completion, projected re-tenanting, payment of tenant improvement or leasing commissions allowances or free or abated rent periods, or increased tenant occupancies.

Non-GAAP Financial Measures

In addition to disclosing financial results calculated in accordance with United States generally accepted accounting principles (GAAP), this press release and the accompanying investor presentation present non-GAAP financial measures, such as Core Earnings and Core Earnings per basic common share, that exclude certain items. The non-GAAP financial measures presented by the company represent supplemental information to assist investors in analyzing the results of its operations. However, because these measures are not calculated in accordance with GAAP, they should not be considered a substitute for, or superior to, the financial measures calculated in accordance with GAAP. ⁽¹⁾ Core Earnings is a non-U.S. GAAP measure that we define as comprehensive income attributable to common stockholders, excluding "realized and unrealized gains and losses" (impairment losses, realized and unrealized gains or losses on the aggregate portfolio and non-cash compensation expense related to restricted common stock). We believe the presentation of Core Earnings provides investors greater transparency into our period-over-period financial performance and facilitates comparisons to peer REITs.
